TWO DOWNS.

The giddy young man very early in life falls in love with each girl he sees; this down sooner shows up on his lip than he goes down on his knee.

Mrs. Arthur S. Best of Millersburg continues to improve.

Miss Hassel Bramel is able to be out after several weeks illness.

Special prices on Pianos and Sewing Machines at Gerbrich's.

Master Francis Brown of East Fifth street is very sick with the measles.

Miss Margaret McManahan, of West Second street got the second prize for working a recent Cincinnati Commercial-Tribune rubus.

Caleb Powers has issued a statement in which he says he does not want Judge Robbins to try his case, and hopes that the latter will decline the appointment.

The State Farmers' Institute closed its business Thursday after a session of three days in Shelbyville, and the results are regarded as highly satisfactory to those who conducted it.

The outlook for a prosperous business during the spring, summer and fall months was never brighter than it is now in Maysville, and if some wandering iconoclast does not happen along this way and kick over and spill our pail of rich milk, all will be well.

A gentleman scanning a legal paper the other day noted a peculiar peculiarity in the instrument. A party attesting the signing of the document by another, using the cross mark presumably, signed his name in his own chirography and in another part of the same paper his name appears with his X mark attached thereto. Queer, isn't it?

C. C. WILLIAMS.

Mr. C. C. Williams, eldest son of Squire C. W. Williams, died Thursday afternoon at 3 o'clock at the family home near Mayslick. The funeral will occur this afternoon at 2 o'clock from the Mayslick Baptist Church.

MRS. E. H. BRYANT.

Mrs. E. H. Bryant died this morning at 3:30 o'clock, at her home in East Second street, Sixth Ward, after a lingering illness.

She was a daughter of Squire M. D. Farrow, and was born November 6th, 1861, near Farrow's Mills, and was married to E. H. Bryant March 23d, 1882.

The deceased was a member of the M. E. Church, South, and her Christian virtues were a sustaining grace during her long sickness.

She leaves a husband and three children; Mrs. J. T. Goodwin of Springdale, Misses Sallie and Laura Bryant of this city, and one brother, Mr. John W. Farrow, of Iatan, Mo.

The funeral will take place Monday morning at 10 o'clock from her late residence, services being conducted by the Rev. C. F. Evans of Carlisle.

Interment in Maysville Cemetery.

DAVID GLASCOCK.

Mr. David Glascock died at his home near Mt. Carmel last night.

He was born in December, 1831, and on February 10th, 1906, celebrated his golden wedding.

His wife, who was a Miss Custer of New York, survives, together with eight children, three daughters and five sons, as follows:

Mrs. J. R. Davis and Mrs. Arthur Glascock of Maysville, and Mrs. C. N. Calvert, of Fleming county, D. T. Glascock, Maysville, and Charles and Robert of Crawfordsville, Ind., H. J. and Scott of Fleming county.

FOUND DEAD

In Bed—Mary Dunn Passes Away at Her Home in Fifth Street

Mary Dunn, a poor widow woman, aged 33 years, was found dead in bed yesterday morning at her poverty-stricken home in East Fifth street, having died during the night alone and unattended.

Her death is attributable to a malady of some kind, hastened by a want of proper attention and insufficient food-nourishment to sustain life and body together.

The family consisted of the dead woman, her two little boys of tender age, and the father of the deceased, John Crissman, who is without means and friends, and is evidently trifling in character.

With the exception of being gowned in a clean wrap, the body remained all day yesterday without the attention of an undertaker.

If the good people of the community do not contribute towards defraying the funeral expenses, the City officials will have to take charge and give the remains a decent burial, even though it be in the potter's field.

The scene at the desolate home is a pitiable one in the extreme; one that is not often met with in this city.

The two orphaned children should be looked after, and if possible a home found for them at once.

It is hoped the Christian ladies in the city will interest themselves in behalf of the motherless little ones.

At a late hour yesterday evening the good ladies of the city came to the rescue, and in conjunction with the City, the poor woman will be given a Christian burial this afternoon.

School at Germantown will close next week. Marion Markwell, aged 78, died Wednesday at his home near Flemingsburg.

The state of Indiana will place a \$5,000 statue of General Lew Wallace in Statuary Hall in the Capitol at Washington.

The Commercial National Bank, capital \$100,000 and John A. Donard, president, will soon open for business at Covington.

Mrs. Grant Emmons died Wednesday at her home near Tilton. She was 32 years of age and leaves a husband and five small children.

The number of impressions which come into a man's brain in a lifetime is startling. Psychologists have computed that since it takes one third of a second for an impression to enter the brain, a man who lives to be a hundred years old must have collected in his brain during this time 9,460,800,000 copies of impressions. Deducting one-third of this time for sleep, there are 6,307,200,000. This would give 3,153,600,000 separate waking impressions to a man who lived fifty years.

At Baltimore Wednesday three workmen were struck and killed by a B. and O. locomotive.

Augusta has gotten its telephone system in working order again, the flood having badly wrecked the line.

NEXT Sunday has been set apart at San Francisco as a day to be devoted to cleaning up the entire city, and it is said that 100,000 men have volunteered to do the wholesale housecleaning act.

THE official call for the Republican State Convention at Louisville, June 19th, has been issued by Chairman R. P. ERNST. There will be 2,055 votes in the convention, making 1,028 necessary to a choice. Mason county is entitled to 20 votes.

THE Willson boom for Governor of Kentucky continues to meet popular approval and is sweeping aside all opposition. It would usher in a new era for old Kentucky to have Governor WILLSON occupy the Executive Mansion at Frankfort.

OUR esteemed neighbor, The Carlisle Mercury, in its last issue contained the following—

"While THE MAYSVILLE LEDGER is singing the praises of 'tobacco,' there is great force being organized in the churches of this country to send tobacco chewing and tobacco smoking to join the drinking of liquor. It is looked upon by many as more decent to drink than it is to smoke or chew."

This is, indeed, a new idea, and is a brand of "Reform" with a cap "R," and sounds like one of Aunt CARRIE NATION's pipe dreams. Reformers are generally visionaries and would use the law as a club to wipe out all sin and even the piccadilloes of the human family. By grasping at the shadow, unreason, they lose the substance, reason, which must underlie all in the pursuit of success in these matters.

WHY not call him Mr. Jaw-rome?

SENATOR JOSEPH CLAY STYLES BLACKBURN, who on March 4th leaves a \$5,000 job given him by the Democracy of Kentucky to accept a \$10,000 job under a Republican Administration, is, per force, eliminated as a possible opponent of Hon. S. W. HAGER, Democratic nominee for Governor of Kentucky.

THE President and Senator FORAKER have apparently buried the hatchet. The latter's endorsements for several important Ohio offices have been followed by their appointment by the President. Congressman LONGWORTH, son-in-law of the President, seems to be the mediator and the real man of influence, just now, in Ohio politics.

It is a tremendous job the weighing of all the mail-matter carried on every railroad in the United States every four years. The work is now in progress and will require three months. It is estimated that the Government will save at least four or five million dollars a year hereafter by the careful weighing of the mails. Heretofore, it is alleged, the weight has been "padded" by the railroads and the average matter carried, fictitiously boosted in their favor. Your UNCLE SAMUEL is gradually growing wise in the school of experience and is rapidly getting on to the "ways that are dark and the tricks that are vain," of the railway moguls.

OF COURSE.

The morning class had been duly instructed and enlightened upon the subject of our National independence. Feeling sure she had made a real and lasting impression with her explanations and blackboard illustrations, the young teacher began with the usual round of questions:

"Now, Sammy Smith, where was the Declaration of Independence signed?"

Sammy, with a shout of glee: "At de bottom, ma'am—that's what you said!"

NAMED BY GREAT EXPLORER.

Waterway Called After Champlain Has Now No Designation.

A name which Samuel Champlain applied to a certain waterway in our country should be revived. Champlain has been called "the real founder and the father of Canada." He was also the first who carefully explored the coasts of our New England, years before the coming of the Pilgrim Fathers, and accurate and concise was his description of the shores and waters that he followed into Penobscot and Boston bays, past Cape Cod and along the south coast to Buzzards bay. Champlain was a modest man, but for once in his career he gave his own name to a geographical feature—that which marked the end of his discoveries in what are now United States waters. He wrote:

"Coasting along to the southwest nearly 12 leagues, we passed near a river which is very small and difficult to approach because of shallows and rocks at its mouth. I gave it my name."

Seeing this waterway from the deck of his vessel, Champlain misapprehended its nature. It is not a river, but is a short and narrow strait, widening at two places inland and connecting the waters of Buzzards bay with Vineyard sound. The village of Wood's Hole stands on its northern shore.

To-day this waterway seems to have no name. It is very clearly mapped on the government topographic sheet, but without a name. The leading gazetteer says merely that Wood's Hole is situated on a small strait. The fact has been forgotten that it was named by the great explorer who was the first to call attention to it.

The practicability of the method now being employed extensively in the sponge industry in procuring this product, says the Tarpon Springs (Fla.) News, is no longer in doubt, and a large percentage of the Tarpon Springs vessels are changing from the old method of hooking to the new one of diving, and in order to successfully accomplish desired results with the diving method it was thought necessary to employ Greeks, who are accustomed to the work, as it seemed doubtful whether many of those who have followed the hooking process would care to don the helmet and leaden shoes and pull sponge with from 30 to 60 feet of water overhead. But recent experiments by a few have demonstrated that a little practice and confidence, together with a good physical condition, are all that is needed to become a diver.

The merchant who does not advertise is the one who loses most because of the aggressiveness of the mail order houses. The public must know that the local dealers can supply needed merchandise and the safest, surest way to get business is to use abundant newspaper space.

In a 60-day test, just completed at Fon Du Lac, Wis., under the personal supervision of a representative of the Wisconsin Experiment station, a Holstein-Friesian cow, owned by W. J. Gillett, has broken the world's butter record by 40 pounds. The official test shows 5,326.7 pounds of milk and 260.5 pounds of butter.

JUDGE THOMAS H. PAYNTER,

Senator-elect, to succeed Hon. J. C. S. Blackburn of Kentucky next Monday, March 4th. Judge Paynter is now in Washington City, accompanied by his son, Pollock Paynter, his son-in-law, Morton K. Yontz, of Louisville, and a party of Frankfort friends, who will be present when he is sworn in. Judge Paynter has had a notable career in Kentucky politics and has never been defeated for office. He was three times elected to Congress from this District on the Democratic ticket, elected twice a Judge of the Court of Appeals, serving as Chief Justice, and was elected United States Senator last winter.

Hail, all hail, gentle spring.

The Building Committee of the Home for Aged and Infirm Masons of Kentucky has selected plans for the building to be erected at Shelbyville and will award the contract March 11th. The new building will cost between \$26,000 and \$30,000; the appropriation being authorized at the last meeting of the Kentucky Masonic Grand Lodge held in Louisville.

The Thaw trial drags and has developed into a legal battle of words and technicalities between District Attorney Jerome, and the Doctor's of insanity, and Attorney Delmas. Harry Thaw is either daffy or there is method in his madness. Anyhow, he may force the issue of his mental unsoundness by his actions during the trial.

The morals of Maysville at the present time are as good, if not better, as that of any city of like size along the Ohio river. These conditions are in part due to the excellent police force, and in part to a general desire of the community at large to be law-abiding and peaceful citizens. There are few towns on the map just as good as dear Old Maysville. A man who is not satisfied with conditions as they exist here is hard to please.

DREADFUL MORTALITY

From Consumption—More Than a Half Million Deaths Last Year

The Census bureau has just published its annual report on mortality statistics, which refer to ten states and 123 cities, containing over thirty million people, in which mortality records are kept.

The Government's latest figures covering the thirty million people show 545,533 deaths in 1905, a death rate of 16.2 per cent. This is lower than that of Ireland, Germany or Italy, but higher than that of England, Wales, Scotland and the Netherlands. The death rate from scarlet fever decreased from 13.1 per 100,000 in 1901 to 6.8 in 1905. Tuberculosis, or consumption, causes more deaths than any other disease. It caused 56,770 in the registration area in 1905.

Cincinnati has a very high death rate from consumption; one of the few cities of over 100,000 population in which 230 or more persons out of every 100,000 died of consumption.

A special from Frankfort says Governor Beckham has appointed L. A. Faure of Hardin county, as Special Judge of the Mason Circuit Court in the trial of a case of R. B. Lancaster v. B. H. Lancaster, Executor.

DREADFUL MORTALITY

From Consumption—More Than a Half Million Deaths Last Year

The Census bureau has just published its annual report on mortality statistics, which refer to ten states and 123 cities, containing over thirty million people, in which mortality records are kept.

The Government's latest figures covering the thirty million people show 545,533 deaths in 1905, a death rate of 16.2 per cent. This is lower than that of Ireland, Germany or Italy, but higher than that of England, Wales, Scotland and the Netherlands. The death rate from scarlet fever decreased from 13.1 per 100,000 in 1901 to 6.8 in 1905. Tuberculosis, or consumption, causes more deaths than any other disease. It caused 56,770 in the registration area in 1905.

Cincinnati has a very high death rate from consumption; one of the few cities of over 100,000 population in which 230 or more persons out of every 100,000 died of consumption.

A special from Frankfort says Governor Beckham has appointed L. A. Faure of Hardin county, as Special Judge of the Mason Circuit Court in the trial of a case of R. B. Lancaster v. B. H. Lancaster, Executor.

Mr. Alice H. Evans has returned from a visit to relatives in the county.

Mrs. Elizabeth Waller is the guest of Mrs. Judith V. Marshall of Louisville.
